

Coudenys Management Systems Inc.

ALL ABOUT CMSI

Coudenys Management Systems Inc (CMSI) was founded in September 2006 by Larry Coudenys. The company initially started up as a personal business and then transferred its movement into incorporation on May 7, 2007. In July 2007 CMSI attained the recognition of ISO 9001:2000 Registration and in June 2009 were upgraded to the ISO 9001:2008 version. This backs their commitment to customers by following a documented and structured quality management system with the focus on ensuring Customer satisfaction as the goal of their corporation. In turn, this allows CMSI to be a service provider performing 3rd Party Audits, 2nd & 1st Party Audits, full line of Risk Management services, System Development, auditor courses and consulting to assist corporations in meeting standards. The team of individuals is highly qualified and has over ten year's current experience in this line of work and over 35 years in management experience to international standards.

3rd Party Registration Audit services: We offer 3rd party registration services. Our contracts engage us to perform audits to validate conformity to standards such as governmental, regulatory, ISO 9001, ISO 14001, ISO 27001, ISO 17025 and OHSAS 18001 etc.

2nd Party Supplier Audit services: Organizations do engage us to perform audits on their behalf. We provide compliance or conformity audits of suppliers to ensure they are meeting supplier requirements. Results of these audits supply the client with reports unless otherwise agreed by contract. Reports outline the levels of conformity and compliance.

1st Party Internal Audit services: Our clients retain CMSI to perform internal audit services. Results of these audits supply the client with reports unless otherwise agreed by contract outlining the levels of conformity and compliance reviewed of their system versus actual activity performed.

Compliance Audits: We perform legal compliance audits in areas of Environmental and Health & Safety Compliance to regulations within Canada and the United States of America

Environmental and Health & Safety Services: We offer a variety of services using trained, competent and qualified staff to perform Environmental and Health & Safety Compliance audits, Development of individual and comprehensive Certificate of Approval applications, Environmental management systems development, consulting, training and advisory services.

Customer Satisfaction Surveys: Organizations do engage us to perform audits on their behalf. We perform their customer survey and analyses with direct or indirect interface with the client's customers supplying clients a complete survey analyses to assist in customer and organizational growth.

Consulting: We also offer consulting to corporations to assist in the development of management systems and guidelines to prepare a corporation in attaining compliance to regulations and conformity to International standards in areas of Automotive, Environmental, Health and Safety, Food, Information Systems Security, Laboratory systems, Lean Manufacturing, 5S systems, Six Sigma and more.

Training: We offer a full line of management training programs performed on site or publicly for risk management, manufacturing operational core tools (FMEA, PPAP, MSA, SPC, APQP), Management training and audit programs for all types of industry relating to the following standards, ISO 9001, ISO 14001, ISO 18001, ISO TS 16949, HACCP, ISO 17025, ISO 27001, Environmental Compliance and more.
